To the OU Impact Accelerator Team:

Mission
The Jewish Center for Science uses scientific knowledge to reveal the astounding wisdom and kindness hidden in the world we encounter daily. Our fun and fascinating science educational resources help students get a great education as well as helping them see the wonders of science and nature as the handiwork of Hashem.

Bio
Rabbi Yaakov Lubin is the co-founder and director of The Jewish Center for Science. He is the author of a textbook series for Jewish schools as well as two films Iceland: Land of Fire and Ice” and "The Amazon". He has traveled around the world giving his "Barchi Nafshi" presentation to over 5000 participants including schools, shuls, and nursing homes where he shows the magnificence in Hashem's design of our world.

Timeline/Accomplishments
Founded in 2016
Barchi Nafshi Presentation Tours 2016-2017
First textbook "Fundamentals of Life Science" released in 2018-2019 school year
The Wonders of Creation released in 2019 to bookstores and schools
Second textbook "Anatomy and Physiology" released in 2019-2020 school year
Third textbook "Fundamentals of Physical Science" released in 2020-2021 school year Iceland, Land of Fire and Ice film released in Pesach 2020
The Amazon film released in Sukkos of 2020

Future Goals
Full Curriculum for Grades 4-5 to be released for the school year 2021-2022
Curriculum for grades 1-3 to be released for the school year 2022-2023
New films released each Pesach and Sukkos every year
Begin construction of science museum/center in 2023
