Have you met these groundbreaking ventures?
Meet Cohort III

Thank you!
We did it! Thank you to everyone who attended and contributed to our Cohort II Demo Day graduation. We met our fundraising goal, which will allow us to continue the important work of the OU Impact Accelerator. Missed demo day? Watch it here!

Cohort III
We officially started with cohort iii this month! We selected six organizations to participate in our virtual cohort experience. The organizations cover program areas from technology through Jewish burial. Read about the application process on eJewishPhilanthropy.

Read our press release and learn more about each cohort iii venture on our site.

What's in a cohort?
The OU Accelerator has three main phases: selection, education, and graduation. This month, we begin with workshops, seminars, collaboration, and sessions for the ventures to learn more about leadership and strategy. Throughout the program, we’ll focus on fundraising, marketing, operations, and more. We also create opportunities for coaching, networking and mentorship.
Do you want to be more involved in the Accelerator? Reach out to learn more about our Mentor Network and other ways to get involved.

Summer 2021
Following our successful internship program last summer, we are once again launching an internship program this summer. Know a college student who may be interested? Learn more

Congratulations
Cohort I graduates, GrowTorah and Work At It, were named as part of Slingshot's list of Top 10 to Watch organizations for 2021. Mazel tov!
