“We believe that our program and services offer developmentally appropriate curricula and we strive to enhance social, emotional, physical, and intellectual growth in young children. Experiential learning is promoted throughout our program. Our teachers encourage children to use critical thinking and problem-solving skills in their daily experiences.

A core segment of our educational philosophy is a focus on social-emotional development. Our goal is that our students become confident, competent, and caring members of their communities. Students are taught the foundations of problem solving, negotiation, and working both independently and cooperatively.”
